

## ADVANCE RESERVATION

# HO Scale N Scale SOUTHERN PACIFIC CAB FORWARD LOCOMOTIVES

Once again the popular Southern Pacific cab forward locomotives will be available. These popular models represent a very specific prototype locomotive used only by Southern Pacific. Their unusual configuration provided for safe and comfortable travel for the locomotive crews through the numerous snowsheds and mountain tunnels. They represent the best in ingenuity on the part of American business to deal with the unique problems of the moment.

Both the HO and N-Scale versions of this model are "super-detailed". They accurately depict the characteristics of the prototype in every possible way. Operation is realistic as both models are equipped with strong gearing and powerful motors. Four new road numbers are available for the AC-8, AC-10, and AC-11. Three new road numbers are available for the AC-12 and the one number existing at the California Railroad Museum will be repeated. (This is the only AC-12 still in existence today.)

## GE TIER 4 EVOLUTION SERIES LOCOMOTIVES

Under License From GE Transportation

**N**  
Scale

Progress continues on the preparation of the N scale Tier 4 and delivery is expected right after the first of the year. Be sure to submit your Advance Reservations soon so we can begin production as soon as possible. Where appropriate these models are equipped with the new and updated angled exhaust hatch. The Navajo Mining Company paint scheme has been added to the five railroads that currently own this locomotive.

**HO**  
Scale

The first production run of the HO Tier 4 sold out very quickly. In response to the great demand for more of these models we have a planned second production run with delivery expected right after the first of the year. Be sure to submit your Advance Reservations soon so we can begin production as soon as possible. Where appropriate these models are equipped with the new updated angled exhaust hatch. The Navajo Mining Company paint scheme has been added to the five railroads that currently own this locomotive.
