SOUTHERN PACIFIC BAY WINDOW CABOOSE

ADVANCE RESERVATION

The Southern Pacific Bay Window Caboose is back! Two of the current paint schemes have never before been offered by CCS. These sharply decorated, highly detailed caboose models will be a welcome addition to any discerning modeler's layout. Four road numbers are available in each scheme. Place your Advance Reservations soon!!

N
Scale

SD40-2 LOCOMOTIVES

AVAILABLE NOW!

Ten paint schemes of the N scale SD40-2 locomotives will be delivered this month. Multiple road numbers are available for each offering (except for Montana Rail Link which only had one of these locomotives). Road specific details are an important part of these models. Eight roads in this offering have accurate illuminated ditch lights; the other two roads pre-date ditch lights. Each of the models is being offered for the first time by InterMountain and are available in DC, DCC, and DCC with Sound using ESU decoders. Shipping will begin during the week of December 4th.

TECH TIP!

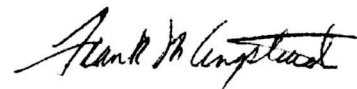

The Tier 4 GEVO locomotive has an Auto E-Bell that rings when the horn is sounded as per the prototype. Some of you may have noticed a "Double Ding" when you have the Bell (F1) turned on prior to sounding the horn (F2). Thanks to Matt Herman at ESU this can be corrected by changing some CVs! These CVs can be changed on the mainline or on the program track.

Set the following in the order listed: CV32 = 2, CV319 = 0, CV32 = 3, CV385 = 128, CV386 = 1, CV399 = 1

Note that if you sound the horn (F2) prior to activating the bell (F1), there will still be a double ding until the Auto E-Bell turns off from the horn being sounded. A fix for this is more complex and might be done in the future. If your DCC system cannot program CVs higher than 255, please see our website's DCC Assistance section and click on "ESU Decoder Tips and Tricks".

HOLIDAY SALE EXTENDED!!

The 2017 Holiday Sale is extended to December 31st. The sheets included in this memo reflect sale items that are still available. Call your InterMountain sales rep for further details.
