

**FEBRUARY 2018**  
DEALER ANNOUNCEMENT

## **HO EVANS 100 TON COIL CARS**

*Scale* **ADVANCE RESERVATION**

The recent release of coil cars was very well received so we are releasing two new paint schemes and two reruns for Advance Reservation. We have also listed six paint schemes we could not produce with the last group due to low reservation numbers. These are very unique cars that are highly detailed and crisply decorated. They will be a great addition to almost any model railroad layout.

### **INDIVIDUAL COIL CAR HOODS**

For the first time, we are offering extra coil car hoods. These hoods will be available separately in an individual package allowing the modeler flexibility to mix and match the hoods on their cars.

### **SAVE THESE MODELS!**

Please note the section at the bottom of the Evans Coil Cars page labeled "SAVE THESE MODELS". In order to produce a particular project we must have a reasonable number of Advance Reservations. These items are a few short of meeting that requirement. With a little more support we will be able to proceed with production. Your interest in each of these products determines our ability to produce them.

## *Scale* **N 13 DOUBLE BEDROOM SLEEPER CARS**

**ADVANCE RESERVATION**

Several of the ten paint schemes being offered are reruns with new car numbers or car names. Two of those offered are being made available for the first time. Also available are assembled, undecorated models that can be decorated according to the individual modelers' desires. They will be equipped with Micro-Trains® passenger trucks with operating truck mounted couplers.

## *Scale* **N SD40-2W LOCOMOTIVES**

**AVAILABLE NOW!**

Shipping the week of February 12th will be nine paint schemes of the N scale SD40-2W locomotives. Available in DC, DCC, or DCC with Sound, they are equipped with the new ESU N scale sound or non-sound decoders.

Frank Angstead  
InterMountain Railway Company
