

**ADVANCE RESERVATION**

**HO Scale AEROFLO II HOPPER CAR - NAVAJO MINE RAILROAD**

**N Scale** The Navajo Mine Railroad is a 13.8 mile short line that is not connected to the national railroad network. It runs from the Navajo coal mine to the Four Corners Generating Plant west of Farmington. The Navajo Mine Company is currently the only private owner of the GE Tier 4, having purchased two modified demonstrator units from General Electric.

To facilitate the modeling of this unique line, in cooperation with Navajo Transitional Energy Company, we are offering for Advance Reservation the Aeroflow II Hopper Car decorated for the Navajo Mine Railroad. These cars will be sharply decorated and will include operating knuckle couplers and InterMountain metal wheelsets. They are being offered in three six packs, providing a total of eighteen road numbers.

**HO Scale ATSF STOCK CARS**

**N Scale** By popular demand, after several years, we are once again offering the Santa Fe Stock Car in both HO and N scales. Eight paint schemes are available covering most of the period during which these cars were produced. Each paint scheme will include six road numbers. Three of the items are being produced for the first time in N scale and one for the first time in HO scale. Characteristics of this model are their fidelity to the prototype, sharp decoration, and an extremely high level of detail.

**N Scale 10-5 SLEEPER CARS**

These attractive, popular passenger car models are being offered for Advance Reservation once again to give modelers the opportunity to fill or add to their passenger car consists. This group includes fourteen paint schemes, four of which are being done for the first time by Centralia Car Shops.

There is something for modelers of all geographic areas across the country and all are beautifully decorated, most with bright coloring following the prototype.

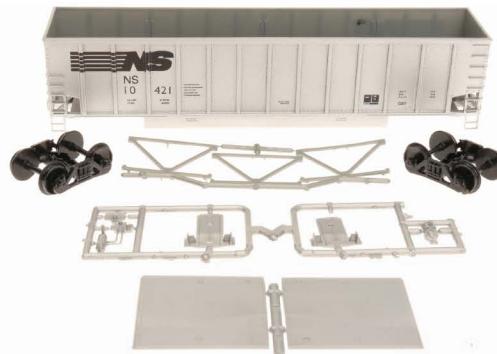

**AVAILABLE NOW**

**COALPORTER® KITS**

**HO Scale**

These finely decorated models were produced several years ago by Hubert Manufacturing and it is time to get them into the hands of those modelers who wish to build unit trains of this unique model. They are very reasonably priced and are equipped with InterMountain bolsters, 100 ton trucks and 36in. plastic wheel sets. Weights and couplers are not included.

Coal loads to fit these cars, previously produced by Motrak Models, are now being manufactured by F&N Hobbies. *These loads also fit in the Aeroflo & Aeroflo II Coal Gondolas that are shipping this month.* They are available now from InterMountain Railway or from F&N Hobbies directly.

**HO Scale Aeroflo & Aeroflo II Coal Gondolas**

Eight road names with thirteen road numbers for each. Coal loads for these cars are also available now.

**HO Scale Southern Pacific Beet Gondola**

Twelve road numbers are available for this highly anticipated gondola.

**N Scale 60ft. Wood Deck Flat Cars**

Five road names with six road numbers each.

**N Scale 5277 Cubic Foot Boxcars**

Six road names with six road numbers each. Three of the road names are versions of the ever popular Railbox cars.

Frank Angstead  
InterMountain Railway Company

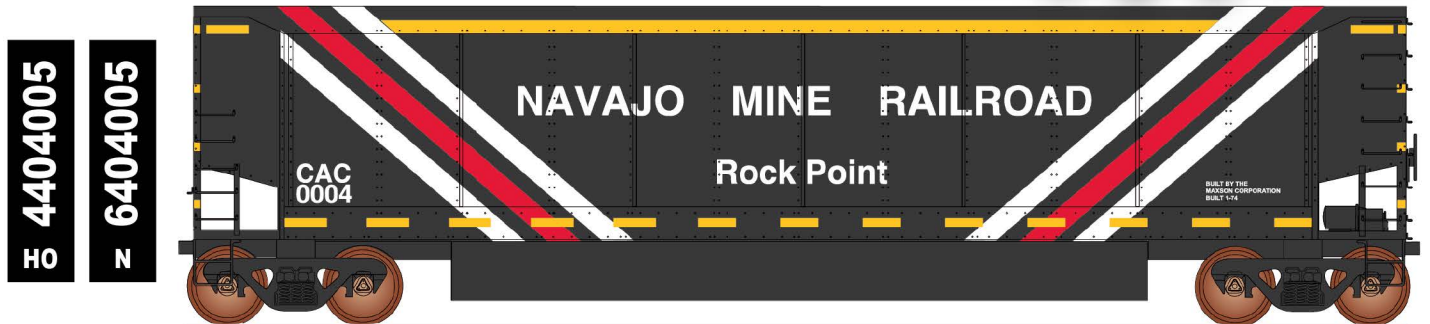

# Aeroflo II Gondolas

Announced: June 8    Reservations Due By: August 31

Features: Sharp Painting and Lettering, Multiple Road Numbers, Metal Wheelsets and Operating Knuckle Couplers.

**HO List: \$159.95 per Six-Pack**

**N List: \$118.95 per Six-Pack**

# Navajo Mine Railroad

## 18 Car Numbers Available in Three 6-Packs

(Stock # -A01, -A02, & -A03)

The Navajo Mine Railroad is a private railroad operated for the Navajo Transitional Energy Company in New Mexico. The railroad runs on almost fourteen miles of track between Four Corners Generating Station and BHP Billiton's Navajo Coal Mine in completely captive service. InterMountain Railway Company is excited to offer this particular paint scheme to compliment the Navajo Mine Tier 4 Gevo Locomotives that we are producing. Although not the same as the Maxon cars used by the Navajo Mine Railroad, our Aeroflo II gondolas provide a reasonable stand-in car to pull behind your Navajo Tier 4 locomotives. There are eighteen roadnumbers available in this first offering divided among three six-packs. The Navajo Mine Railroad owns forty-two coal hoppers which will allow for future runs of this unique paint scheme!

### A01 Six-Pack Roadnumbers:

- CAC 0001
- CAC 0003 Sweetwater
- CAC 0004 Rock Point
- CAC 0012
- CAC 0015 Ramah
- CAC 0018 Standing Rock

### A02 Six-Pack Roadnumbers:

- CAC 0017
- CAC 0019 Nenahnezad
- CAC 0020 Two Grey Hills
- CAC 0021 Upper Fruitland
- CAC 0023
- CAC 0026 Red Mesa

### A03 Six-Pack Roadnumbers:

- CAC 0029 Beclabito
- CAC 0030
- CAC 0033 Nageezi
- CAC 0034 Torreon
- CAC 0039
- CAC 0042 Becenti
