

AVAILABLE FOR A LIMITED TIME ONLY!
PICK SIX

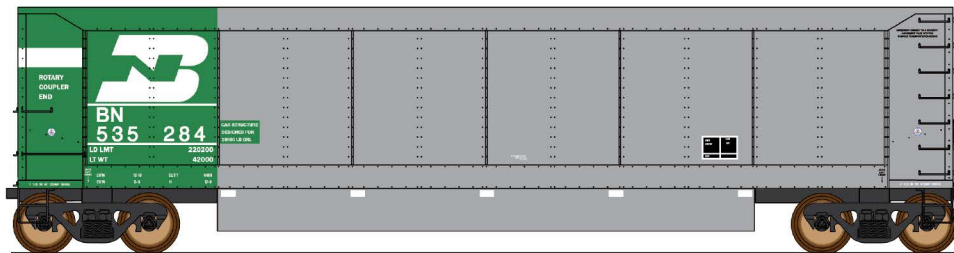

Several DeLuxe Innovations items are available on Pick 6 for this month. They include several varieties of steel buildings, six road names in the Gunderson Maxi IV container cars, and 11 different road names in 40' and 48' containers. There is something here for everyone dedicated to N scale modeling. Quantities are limited so get your orders in early.z

AEROFLO II HOPPER CAR - NAVAJO MINE RAILROAD

Just a reminder from the June announcement for the HO Navajo Mine Railroad Hopper Cars. Three six packs are included making eighteen road numbers available. These three sets of cars will make a nice train for those modelers interested in representing this unique railroad scene.

HO Scale AEROFLOW AND AEROFLOW II COAL GONDOLAS

These popular cars represent a large geographic distribution with eight road names offered. Thirteen car numbers are available for each road name so there are plenty of options for building a LARGE coal train. These cars were built in the 1990's and are still running today, providing coal distribution across the country. Also available for the creative modeler are six versions of "data only" cars with varied decoration. There are enough options to create almost any available road name in unlimited road numbers.

N
Scale

PASSENGER CARS

For those passenger car modelers still filling out their consists two body styles are available for Advance Reservation this month. Three road names in the 48 Seat Coach with forward vestibule are offered in three car numbers each. Eight road names are offered in the 18 Room Roomette cars with two city names for each. The Union Pacific version is being offered for the first time. The Illinois Central, Pennsylvania – Yellow/Gray, and Nickel Plate Road versions only had two cars so they are being repeated. The other five road names have two new city names available.

Frank Angstead
InterMountain Railway Company

AeroFlo & AeroFlo II Coal Gondolas

Announced: July 20

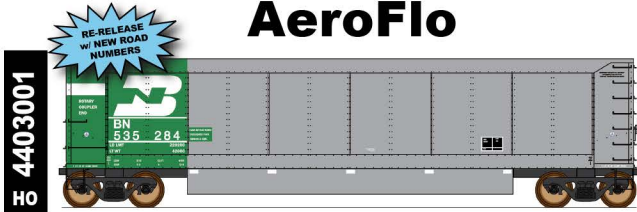

Reservations Due By: September 30

Features: Sharp Painting and Lettering, Prototype Accurate Paint Schemes, Operating Couplers, and InterMountain Metal Wheels. 13 Unique Road numbers! Two separate Six-Packs available with different road numbers in each. Single car available with different road number. The single car is a double rotary depending on the prototype.
