

**October 2018**  
DEALER ANNOUNCEMENT

# IN-STOCK ITEMS AVAILABLE

For those of you that want to stock the shelves for the upcoming Holiday Season, there is still a good selection of in stock InterMountain product available for immediate shipping. Most orders received before noon can be shipped within a day. Please refer to the InterMountain web site at [www.InterMountain-Railway.com](http://www.InterMountain-Railway.com) for an up to date listing.

**ADVANCE RESERVATION**

## WOOD SIDED REFRIGERATOR CARS

Available this month for Advance Reservation is the wood sided refrigerator car. Ten colorful paint schemes will be available featuring all new car numbers. Exacting photo-etched metal and laser-crisp printing make these cars a spectacular addition to any early era layout. These cars were in service on all major railroads all across the country, and their successors remain in service today delivering perishable food items to every part of North America.

**AVAILABLE NOW**

## “SPECIAL ITEMS” AVAILABLE THIS MONTH

Remnants of five previously produced special runs as well as a couple of items that have minor factory errors offer an interesting option for enthusiasts of these particular cars. Don't miss your chance to add these colorful and beautifully decorated models to your collection.

## TRAINFEST IS ON THE HORIZON

In just a few weeks Trainfest, the popular annual show at the Milwaukee, Wisconsin fairgrounds, will begin. Held on Saturday and Sunday, November 10th and 11th, the show promises to have something for every modeler, serious or casual. All scales are represented and numerous operating layouts are set up at the show. A multitude of manufacturers exhibit at the show, featuring a wide range of products. Attendance includes those from across North America, as well as other countries.

If you are able to attend Trainfest, be sure to drop by the InterMountain booth and visit with Doug and Ron. They will be attending and will look forward to bringing you an update regarding the present status of InterMountain production, both current and into the future.
