

**December 2018**  
DEALER ANNOUNCEMENT

# WHEELSETS! WHEELSETS!! WHEELSETS!!!

Happily, in the midst of major supply chain issues, we have been able to maintain a steady supply of HO, N scale, and O scale metal wheelsets. Nearly all versions of our much sought after line of wheel sets are currently in stock. These all brass, non-magnetic wheel sets have become a standard in the model railroad hobby. Over 11,000,000 of the HO wheel sets have been sold by InterMountain.

## Inbound Freight Cars!

**HO**  
*Scale*

After a long drought, production is under way! The first HO freight car of the year will be shipping soon. Ten paint schemes of the HO 4650 cubic foot hopper car are included in this first offering of 2019. Decorated samples of all ten will be on our table at the Amherst show over the weekend of January 26th and 27th.

## Manufacturing Update

With the first production of 2019 shipping in February, there will be a short hiatus before the next items are available due to the Chinese Lunar New Year. Factories are already closing for this extended holiday and will not be back in production until the last half of February.

We expect a steady flow of product to begin soon, with numerous items being available for shipment beginning in March. Watch the web site and InterMountain announcements for more details.

## 4650 Cu. Ft. 3-Bay Hoppers

Production has begun on InterMountain's next run of HO Scale 4650 Cu. Ft. Hopper Cars and will be available this spring. These will be the first examples of our new supply chain & manufacturing capabilities. We are excited to share them with you, so keep an eye out for the official announcement of their arrival for distribution!

# Model Railroading Runs on

As the industry leader in freight car wheel design, InterMountain Railway Company prides itself on the over **11 million sets of wheels sold** in our long history. Enthusiasts from around the world swap out their stock wheels for InterMountain wheels to improve their freight cars. Our designers & engineers have created the most reliable and sought after wheels available in the HO, N, and O Scale Markets.
