48ft. AND 53ft. CONTAINERS

AVAILABLE NOW

There are 20 different versions of these attractively decorated containers available for shipment. Each paint scheme is offered in three two-packs all with different road numbers. Modelers will want to fill their container trains with this wide variation of varied sized and decorative schemes. These are the containers we see at the crossing every day, making them the dream of every modern HO modeler.

SHOW REPORT

We enjoyed visiting with many members of the modeling community at both the National Train Show in Salt Lake City and the Spring Creek Model Train Show in Deshler, Nebraska. It was a pleasure for our staff to be able to listen to the comments and answer questions in the InterMountain booth. Our next big show will be at Trainfest in Milwaukee in November. See you there!
