

10'6" MODIFIED 1937 AAR 40' BOXCARS

HO
Scale

Sixteen paint schemes of the HO 10'6" Modified 1937 AAR 40' boxcars are ready to ship! The 40'6" length and 10'6" inside height remained the standard through the 1940's and 1950's handling all types of freight. They were used in interchange service into the 1980's. Typically they were equipped with Bettendorf trucks and 33" wheels. With an inside capacity of 3,713 cubic feet, they were rated as 50 ton cars.

Eight of the sixteen decorative schemes are being offered for the first time by InterMountain. All items are offered in six road numbers. The models are equipped with metal operating couplers and InterMountain metal wheel sets. Confirm your orders early as quantities are limited.

N
Scale

The seven decorative schemes of this unique model all carry Santa Fe markings. There is a good selection of slogans and maps for every Santa Fe modeler and for those whose roads used these cars in interchange service. All of the models feature six road numbers and are equipped with operating knuckle couplers and InterMountain metal wheel sets.

LONESTAR MODELS PRODUCT AVAILABILITY

As a distributor of the Lonestar Models line of products we are featuring a large array of items this month at **SPECIAL PRICING**. (Call your InterMountain Sales Rep for details.) Various versions, as illustrated, of the 40' Flatbed Trailer kits, the Wilson 43' Grain Trailer kits, and both the 20' Lumber Bed and 18' Stake Bed truck kits are all in stock. In addition, the entire selection of detail parts shown in the attached sheets is available. This is a great opportunity to stock up on Lonestar Models products!

"WHAT'S NEAT IN MODEL RAILROADING"

Ken Patterson, a noted reviewer of model railroad products, has been doing a weekly podcast under the name of "What's Neat in Model Railroading" for some time. This week's production features InterMountain President Ron Angstead showing several recently available products as well as a few that will be available during the next few months. This is one show you can't miss. Tune in and see "What's Neat" in your favorite hobby!

VIRTUAL NATIONAL TRAIN SHOW

While personally attended model train shows are probably several months from reality, an ingenious group of hobbyists have planned a "virtual" national show for July 16th. InterMountain has already "booth" reserved space and we look forward to sharing this experience with all of you who are serious about model railroading. We will have more information on this unique experience on our website, Facebook page and in monthly communications. Be sure to attend!

Trailmobile 40' Flatbed Trailer Kits

These model kits feature a laser cut real wood deck and kit parts are molded in the appropriate color for the prototype trailer so that painting is optional. Trailers can be built utilizing variations including bulkhead types, placards, tool box and spare tire rack. Trailers have individual light lens castings and come with waterslide decals to decorate the replica. Instructions are included.
