ADVANCE RESERVATION

BI-LEVEL AUTO RACKS

The recent shipment of the HO Auto Racks is **SOLD OUT!** In an effort to satisfy the needs of all of the discriminating modelers that are interested in this exceptional model we are accepting Advance Reservations for the next run. Fully enclosed auto racks have been used exclusively since the late 1980's. These colorful cars can be seen in service throughout North America.

Our hope is to complete the production of these items by the end of the year or shortly thereafter. **Advance Reservations are due August 30th!** This release includes sixteen (16!) paint schemes, ten of which are being done for the first time by InterMountain. There is something for everyone, from Mexico to Canada and all of the area in between.

N
Scale

AVAILABLE NOW

CYLINDRICAL COVERED HOPPERS - TROUGH HATCHES

Eleven paint schemes of the all-time favorite cylindrical hopper car. Six NEW road numbers are available for each release and all of the models are equipped with operating knuckle couplers and InterMountain metal wheel sets. Cylindrical covered hopper cars are widely used to transport a large variety of materials, most commonly grain products from the grain producing regions of the U. S. and Canada to markets throughout the country.

RAILWAY

AVAILABLE NOW

AEROFLO & AEROFLO II COAL GONDOLAS

Nine road names of the colorful N scale Aeroflo, including eighteen car numbers of the unique Navajo Mine Railroad. All other releases feature thirteen road numbers as a single car and two six-packs. This is a great opportunity to stock up on unit-train cars. All models are equipped with operating knuckle couplers and InterMountain metal wheel sets.

The Aeroflo coal gondola is an aluminum rotary dump car used to transport coal from the mine to power plants throughout the U. S. and Canada. Built by Johnstown, the cars first appeared in the late 1980's on the Burlington Northern. Several utilities and lease companies purchased additional cars as did both Canadian National and Canadian Pacific. The cars continue in coal service to this day and are often seen mixed with other aluminum gondolas including the Bethgon Coalporter and Aluminator, both which are available from InterMountain.
