

**February 2021**  
DEALER ANNOUNCEMENT

## **HO** *Scale* **TIER 4 GEVO LOCOMOTIVES**

The first three road names of the HO Tier 4's are imminent! We hope to begin shipping the first week of March. Due to delays in port, the locomotives are still in transit and we are anxiously awaiting delivery. The three road names, BNSF, CN, and UP offer something for everyone as these locomotives are still ranging across the continent pulling train loads of freight. From the Union Pacific version with its beautifully depicted American flag, to the unique red, white, and black Canadian National scheme to the familiar black and orange BNSF these locomotive models are a must for every modern day HO modeler.

Each of the releases offers eight prototypically specific road numbers and each model presents railroad specific details to maintain authenticity to the prototype. Because of the demand for these models in the past we have provided for sufficient production to accommodate your add-on orders. Be sure to confirm your Advance Reservations and add-ons soon to speed up the shipping process.

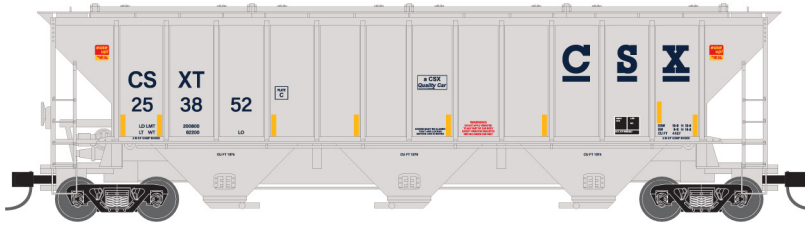

Trainworx has announced Advance Reservations for twelve paint schemes of their NEW 4427 cubic foot hopper car in N scale. Six CSXT schemes feature a single road number each while six colorful roads offer from 2 to 6 road numbers. Advance Reservations are due by March 31 and delivery is expected during the first quarter of 2022.
