CYLINDRICAL HOPPERS - READY TO SHIP!

The HO Cylindrical Hopper Car is available for shipping this month in SIXTEEN paint schemes. There is something for everyone. This unique "Canadian Grain Hopper" is currently seen in service across North America carrying various dry loads. This release includes eight colorful paint schemes with trough hatches and eight paint schemes with round hatches. All of the models are equipped with metal operating couplers, beautiful stainless steel etched metal roof walks, and InterMountain's premier metal wheel sets.

Each of the items features six new, prototypical road numbers. (The ever popular Red Canada release brings the total road numbers for this paint scheme to 304!) Quantities are limited so be sure to confirm your reservations as soon as possible.

LAST CHANCE TO RESERVE!

LOCOMOTIVES - F7A, F7B, AND SD45-2

HEADED FOR PRODUCTION – These popular N scale locomotives will soon be available to the N scale community! We are offering a limited time for N scalers to solidify their Advance Reservations for these much sought after models. Due to extended delays for the production of these locomotives InterMountain is opening them up for additional Advance Reservations until July 31st. At that time the final production order will be placed. Please note that a few of the original release items have been canceled. The InterMountain web site shows those that will be available.
