

February 2022
DEALER ANNOUNCEMENT

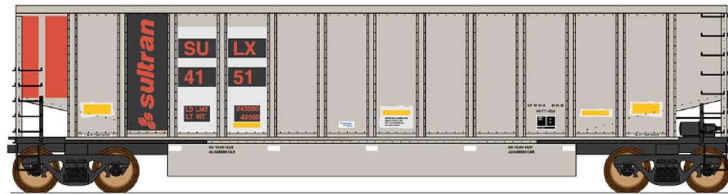

LAST CHANCE TO RESERVE

HO
Scale

70 TON FLATCARS

Be sure to review and place additional Advance Reservations for the 70 ton flatcar. We anticipate placing the production order near the end of March so the deadline is March 25th. Advance Reservations for the flatcar after that date will be on a first come, first served basis. There are ten paint schemes in this production run and each will have six unique road numbers. All models will be equipped with laser-cut wood decks, metal knuckle couplers and InterMountain precision metal wheel sets.

AVAILABLE NOW

HO
Scale

14 PANEL COALPORTERS®

The HO 14 panel Coalporter® will be shipping starting the week of February 28th. There are twelve new paint schemes each with thirteen car numbers, except for stock number 4401011. This item only has nine road numbers due to a manufacturing shortage. These colorful, finely decorated models can be used to make an outstanding coal train. All models are equipped with metal knuckle couplers and InterMountain precision metal wheel sets.

PRODUCTION STATUS UPDATE

Be sure to review the Production Status Update sheet included with this memo. We will be issuing information in this format in the future in order to keep you up to date on upcoming production items.

SHOW REPORT

Thanks to all of you who came by the InterMountain booth at the Amherst Model Railroad Show! The attendance was down a bit this year due to a number of circumstances but the show was still a great success! Hopefully the Show Schedule will pick up this year as the Covid threat lessens. Be sure to visit us in Denver, Colorado for the Rocky Mountain Train Show on April 2nd & 3rd.

Frank Angstead
InterMountain Railway Company

PRODUCTION STATUS UPDATES

This is not a complete list of project statuses. It only shows changes in status that have occurred since the last update. A full list of project statuses can be found on our website in the Current Advance Reservation Section.

- **Taking Reservations:** The project has been announced, and is available for Advance Reservations to be placed. If a reservation is placed within the first 90 days and the project is produced, the customer can be guaranteed their choice of road and number.
- **Pre-Production:** The project has met the minimum required Advance Reservations and internal preparation for purchase orders has begun. Advance Reservations will still be accepted.
- **Queued for Production:** Purchase orders have been placed with the supplier. Advance Reservations will still be accepted.
- **In-Production:** The production run has been scheduled and is in process. Advance Reservations may still be submitted. At this point quantities will be limited.
- **In-Transit:** Production has been completed and the project is on it's way from the factory to the warehouse.
- **Needs Reservations:** Projects that have been Taking Reservations for more than 90 days and have not met the required minimum reservations will be moved to this status. Advance Reservations are encouraged to help this project proceed.
- **Pending Cancellation:** The project has been identified for possible cancellation. If the minimum reservations are not received within 90 days, the product will be cancelled. Advance Reservations are encouraged to help save this project.
- **Cancelled:** The project did not receive the required minimum reservations, and has been removed from consideration. The project may be reconsidered at some point in the future, at which time it will be re-announced and moved to the Taking Reservation status. A "Graveyard" section will be added to the website with a history of all cancelled projects.

FINAL NOTICE!
