Procor Pressure Flow Hopper Cars

ADVANCE RESERVATION

The HO Procor Pressure Flow Hopper Car is being re-announced for Advance Reservation! Three of the paint schemes formerly released have been cancelled due to inadequate interest. Five of the formerly released paint schemes are included in this release. The Advance Reservations for these five releases have been retained so please review and update your Advance Reservations for these. Please submit new Advance Reservations for the three newly announced cars. Four of the eight schemes are all new and have never been offered by InterMountain before. All models include four road numbers, etched metal details, precision InterMountain metal wheel sets, and operating metal knuckle couplers.

Milwaukee Road Rib Side Boxcars

NOW SHIPPING!

The highly anticipated HO Milwaukee Road boxcars are ready to ship! Five paint schemes of this unique car, each featuring six road numbers, include laser sharp decoration, etched metal roof walks, metal knuckle couplers, and precision InterMountain metal wheel sets.

One of the most distinctive designs to roll out of Milwaukee Road's own car shop, this boxcar featured horizontal ribbing. These cars became recognizable in freight trains from 1940 into the 1980's. A series of these cars were rebuilt starting in the 1960's and assigned to the Miller Brewery and used to transport spent grain.

5277 Cu. Ft. Boxcars

NOW SHIPPING!

Seven colorful paint schemes of the N scale 5277 cubic foot boxcars are ready to ship! Four of the paint schemes are being offered by InterMountain for the first time. Each of the models features laser sharp decoration, metal knuckle couplers, and precision InterMountain metal wheel sets.

N
Scale

In the mid 1970's a box car shortage pushed the Interstate Commerce Commission to adopt a concept of "incentive per diem". This was meant to incentivize the railroads to update their box car fleet with higher per diem rates for brand new cars. Many small, sort lines found themselves with a new revenue source offline from their railroad. This became a very colorful time in railroading as box cars from some obscure small railroads became very common on freight trains across the country.
