## HARRIMAN STOCK CARS

### ADVANCE RESERVATION

The HO Harriman stock car is now available for advance reservation. Eight railroads are being offered for the first time by InterMountain, four had previously been produced for Red Caboose. All models feature laser sharp decoration and multiple road numbers. They are equipped with metal operating knuckle couplers and precision InterMountain metal wheel sets. The Advance Reservation period extends until July 31st.

Union Pacific and Southern Pacific, during the steam age shared freight car classes. This was standard for the Harriman railroads of the time. Stock cars built around the turn of the century had a Pressed Steel "fishbelly" side sill design. Starting with the S-40-4, stock cars began to incorporate a straight side sill. Over 6,300 stock cars of this common straight side sill design were built for SP, UP and their subsidiaries. Post war, many stock cars built prior to 1920 were upgraded with AB brakes and received a larger name board. These rebuilt cars ran through the transition era and into the 1960s.

### AVAILABLE NOW

## N SCALE AUTORACKS - IN CONJUNCTION WITH FOX VALLEY MODELS

InterMountain has partnered with Fox Valley Models to produce the popular N scale autoracks. All of the eight paint schemes available for shipping the week of June 3rd, are being done for the first time by InterMountain. All models feature formed wire and finely molded details, laser sharp decoration, Micro Trains® trucks and couplers, precision InterMountain metal wheel sets, and multiple road numbers. Be sure to confirm your Advance Reservations as soon as possible as some items are in short supply.

## SHOW ALERT

InterMountain will be exhibiting at the N Scale Enthusiast gathering in Bethlehem, Pennsylvania on June 22 & 23. Be sure to stop by the InterMountain booth if you are in the area.
