## GE TIER 4 GEVO LOCOMOTIVES

**ADVANCE RESERVATION**

Three popular paint schemes are being offered for Advance Reservations in this release. Two are the familiar Union Pacific and Norfolk Southern schemes. The third is a new version of the Tier 4 in the BNSF scheme. This new "Heavy" ET44ACH version has a number of detail changes that distinguish it from earlier Tier 4 Locomotives. Each paint scheme is available in four prototypical road numbers. Full detail arrays are listed for each model on the enclosed information sheet.

The original producer of the Tier 4 Locomotive, General Electric, sold their transportation division to Wabtec Freight in 2019. Wabtec is producing the current models of the Tier 4. Included is production of the new BNSF six-axle Tier 4 Locomotives. Unlike the previous four traction motors, ES44C4 and ET44C4, this version has six traction motors. Being an extra eight tons heavier than other AC traction locomotives, these "heavies" in theory can pull better than other modern locomotives.

Scale

## TROUGH HATCH CYLINDRICAL HOPPER CARS

**NOW SHIPPING!**

Seven paint schemes of the trough hatch cylindrical hopper car are now shipping. Five of the schemes are being done for the first time by InterMountain Railway Company. These colorful cars were built in the 1980's and are still in interchange service throughout

North America. The Alberta cars were sold to Battle River Railway and the reporting marks were changed to ALBX. The Saskatchewan Grain cars were sold to Mobil Grain and the reporting marks were changed to MGLX. Some of the CN cars were designated to carry grain to the port for transport to Australia, thus the "Agrimium Kangaroo" logo was applied. Each model is available in six prototypical road numbers.

Scale

## EVANS COIL CARS

**NOW SHIPPING!**

Two paint schemes in the Evans 100 Ton Coil Car are available for shipping. These feature the square hood version of the prototype and neither scheme has been produced by InterMountain before now. Each model includes two diecast metal "coil steel" weights. They are finely detailed with laser sharp decoration, and are equipped with Precision InterMountain metal wheelsets and operating metal knuckle couplers.

Scale

## GUNDERSON BOXCARS WITH MODERN ENDS

**NOW SHIPPING!**

Eight colorful paint schemes are available in this production. All of these schemes are being done for the first time by InterMountain. These models feature the modern style ends and have various door styles. They include laser sharp decoration, operating metal knuckle couplers, and precision InterMountain metal wheel sets.

## BNSF

- New "Heavy" ET44ACH Version
- Two Air Intakes behind Cab
- Angled After Treatment Exhaust Bin
- Four road numbers
- Short front snowplow
- Nose door window
- High number boards
- 4-window cab side windows
- Sunshades
- Wabtec air filter
- PTC Antenna Array
- Hi-adhesion trucks
- Low rear sand filler
- Rear vertical headlight

## Union Pacific

- C45AH Version
- Four new road numbers
- Three Air Intakes behind Cab
- Angled After Treatment Exhaust Bin
- Short front snowplow
- High number boards
- 4-window cab side windows
- Sunshades
- Wabtec air filter
- PTC Antenna Array
- Hi-adhesion trucks
- Low rear sand filler
- Rear vertical headlights

## Norfolk Southern

- Four new road numbers
- Three Air Intakes behind Cab
- Angled After Treatment Exhaust Bin
- Short front snowplow
- High number boards
- High vertical front headlight
- 4-window cab side windows
- Sunshades
- Wabtec air filter
- Hi-adhesion trucks
- Low rear sand filler
- Rear vertical headlights
- Rear ditchlights

## MODEL FEATURES:

- Fully-assembled and ready-to-run
- DCC-ready features plug-and-play technology with 21-pin connector
- Scaled from prototype resources including drawings, field measurements, photographs, and more
- Accurately-painted and -printed paint schemes
- Coupler cutbar
- MU hoses
- Trainline hose
- See through cab windows
- Full cab interior
- Walkway tread
- Fine-scale Celcon handrails for scale appearance

- Windshield wipers
- Lift rings
- Wire grab irons
- Detailed fuel tank with fuel fillers, fuel gauges, breather pipes, and retention tanks
- Metal knuckle couplers - Kadee compatible
- Driveline with 5-pole skew wound motor, precision machined flywheels, for trouble free operation
- All-wheel drive with precision gears for smooth and quiet operation
- Wheels with InterMountain RP25 contours operate on all popular brands of track
- Animated spinning roller bearing caps
- Bidirectional LED constant lighting
- Heavy die-cast frame for greater traction and more pulling power
