HO + N Scale

SEMI-ENCLOSED AUTORACK

ADVANCE RESERVATION

A new configuration for our popular HO and N scale Bi-Level Autorack. Eight classic 1980s to 1990s era paint schemes for Advance Reservation. All are being offered for the first time in the Semi-Enclosed variation. Each of these colorful models will feature laser sharp decoration, etched metal side panels, detailed deck, operating metal knuckle couplers in HO, Micro-Trains trucks+couplers in N, and precision InterMountain metal wheel sets. Send in your Advance Reservations as soon as you can so we can reach production quantities as quickly as possible and arrange for production.

As the railroads evolved their equipment to better withstand vandalism and the outside elements. The Semi-Enclosed Autoracks were a mid step evolution, after the earlier open side, and before the fully enclosed versions became commonplace. These versions could be found alongside the fully enclosed versions, in some cases, carrying automobile and commercial vehicle loads well into the 1990s.

PS 4785 3-BAY COVERED HOPPER

NOW SHIPPING

Eleven paint schemes for the HO 4785 covered hopper car are now shipping. Eight of the decorative schemes are being done for the first time by InterMountain. These highly detailed models are being produced with the prototypically correct hatch and gate combinations for each owner. All models feature laser sharp decoration, etched metal roof walks, metal couplers, precision InterMountain metal wheel sets and multiple road numbers. A number of these cars will also be offered “faded and patched”.

These cars were produced in the 1960’s and 1970’s with Penn Central having the largest number of cars, a fleet of over 1,700. A number of cars were also leased to various grain elevators, and second hand to other railroads.
